orders in the matter of liberalising the rules of grant-to Aided High Schools under private management.

Correspondence ending with U. O. Note No. 20C-47-48, dated 4th 8, in the matter of liberalising the rules of grant-in-aid to Aided schools under private management.

ORDER No. E. 4259-60—EDN. 45-47-124, BANGALORE, DATED 4TH NOVEMBER 1948.

present the contributions by the District Boards and localities towards the maintenance of private High schools are being taken into account for the purpose of fixing the maintenance grants to these schools as the contributions are made to the schools out of quasi-Government. The managements of private High Schools have been stating that the contributions made by the local bodies to their maintenance need not be taken into account for the maintenance grant.

The Director of Public Instruction states that where the grant is paid to the schools by the local bodies are taken into account for fixing the maintenance grant, the schools get a relatively smaller grant or no grant at all from the Government. The grants paid by the local bodies to some of the schools are of temporary nature and that, the financial resources of most of the private agencies who have come forward to run High Schools on a grant-in-aid basis are very small and they are not in a position to meet even the one-fourth share of the net authorised expenditure as their contribution. He is of opinion that grants may be given to the aided High Schools without taking into account the grants received for their maintenance from the local bodies, such contributions being considered as given by the local bodies to cover the one-fourth share of the expenditure to be met by the Management. He also states that with regard to the aided High Schools, contributions from the District Boards are not taken into account on the receipt side for the purpose of calculating the Government grant as per the rules relating to those schools and that there are only eight private schools which are in receipt of contribution from the local bodies.

Under the existing rules the maximum grant admissible to private High Schools recognised temporarily is fixed at half the net expenditure (*viz.*, authorised expenditure minus income from tuition, admission and penal fees), the grant being given only temporarily from year to year and paid before the end of each financial year in a lump on the basis of the statement of the school and the statement of the annual account

for the academic year which ends earlier than the financial year. The Director states that the temporarily recognised High Schools may also be given maintenance grants equal to three-fourths of the net authorised expenditure as in the case of the permanently recognised High Schools and the Municipal High Schools and that this will be in consonance with the policy of Government to encourage private effort to open new High Schools.

In the circumstances, Government direct—

(1) that the contributions paid by the local bodies to Aided High Schools need not be taken into consideration while calculating Government grants admissible;

(2) that temporarily recognised High Schools also be given grants to the extent of three-fourths of the net authorised expenditure as in the case of permanently recognised High Schools with effect from the school year 1947-48.
